

**Ready to  
Launch  
Your *Idea*?**

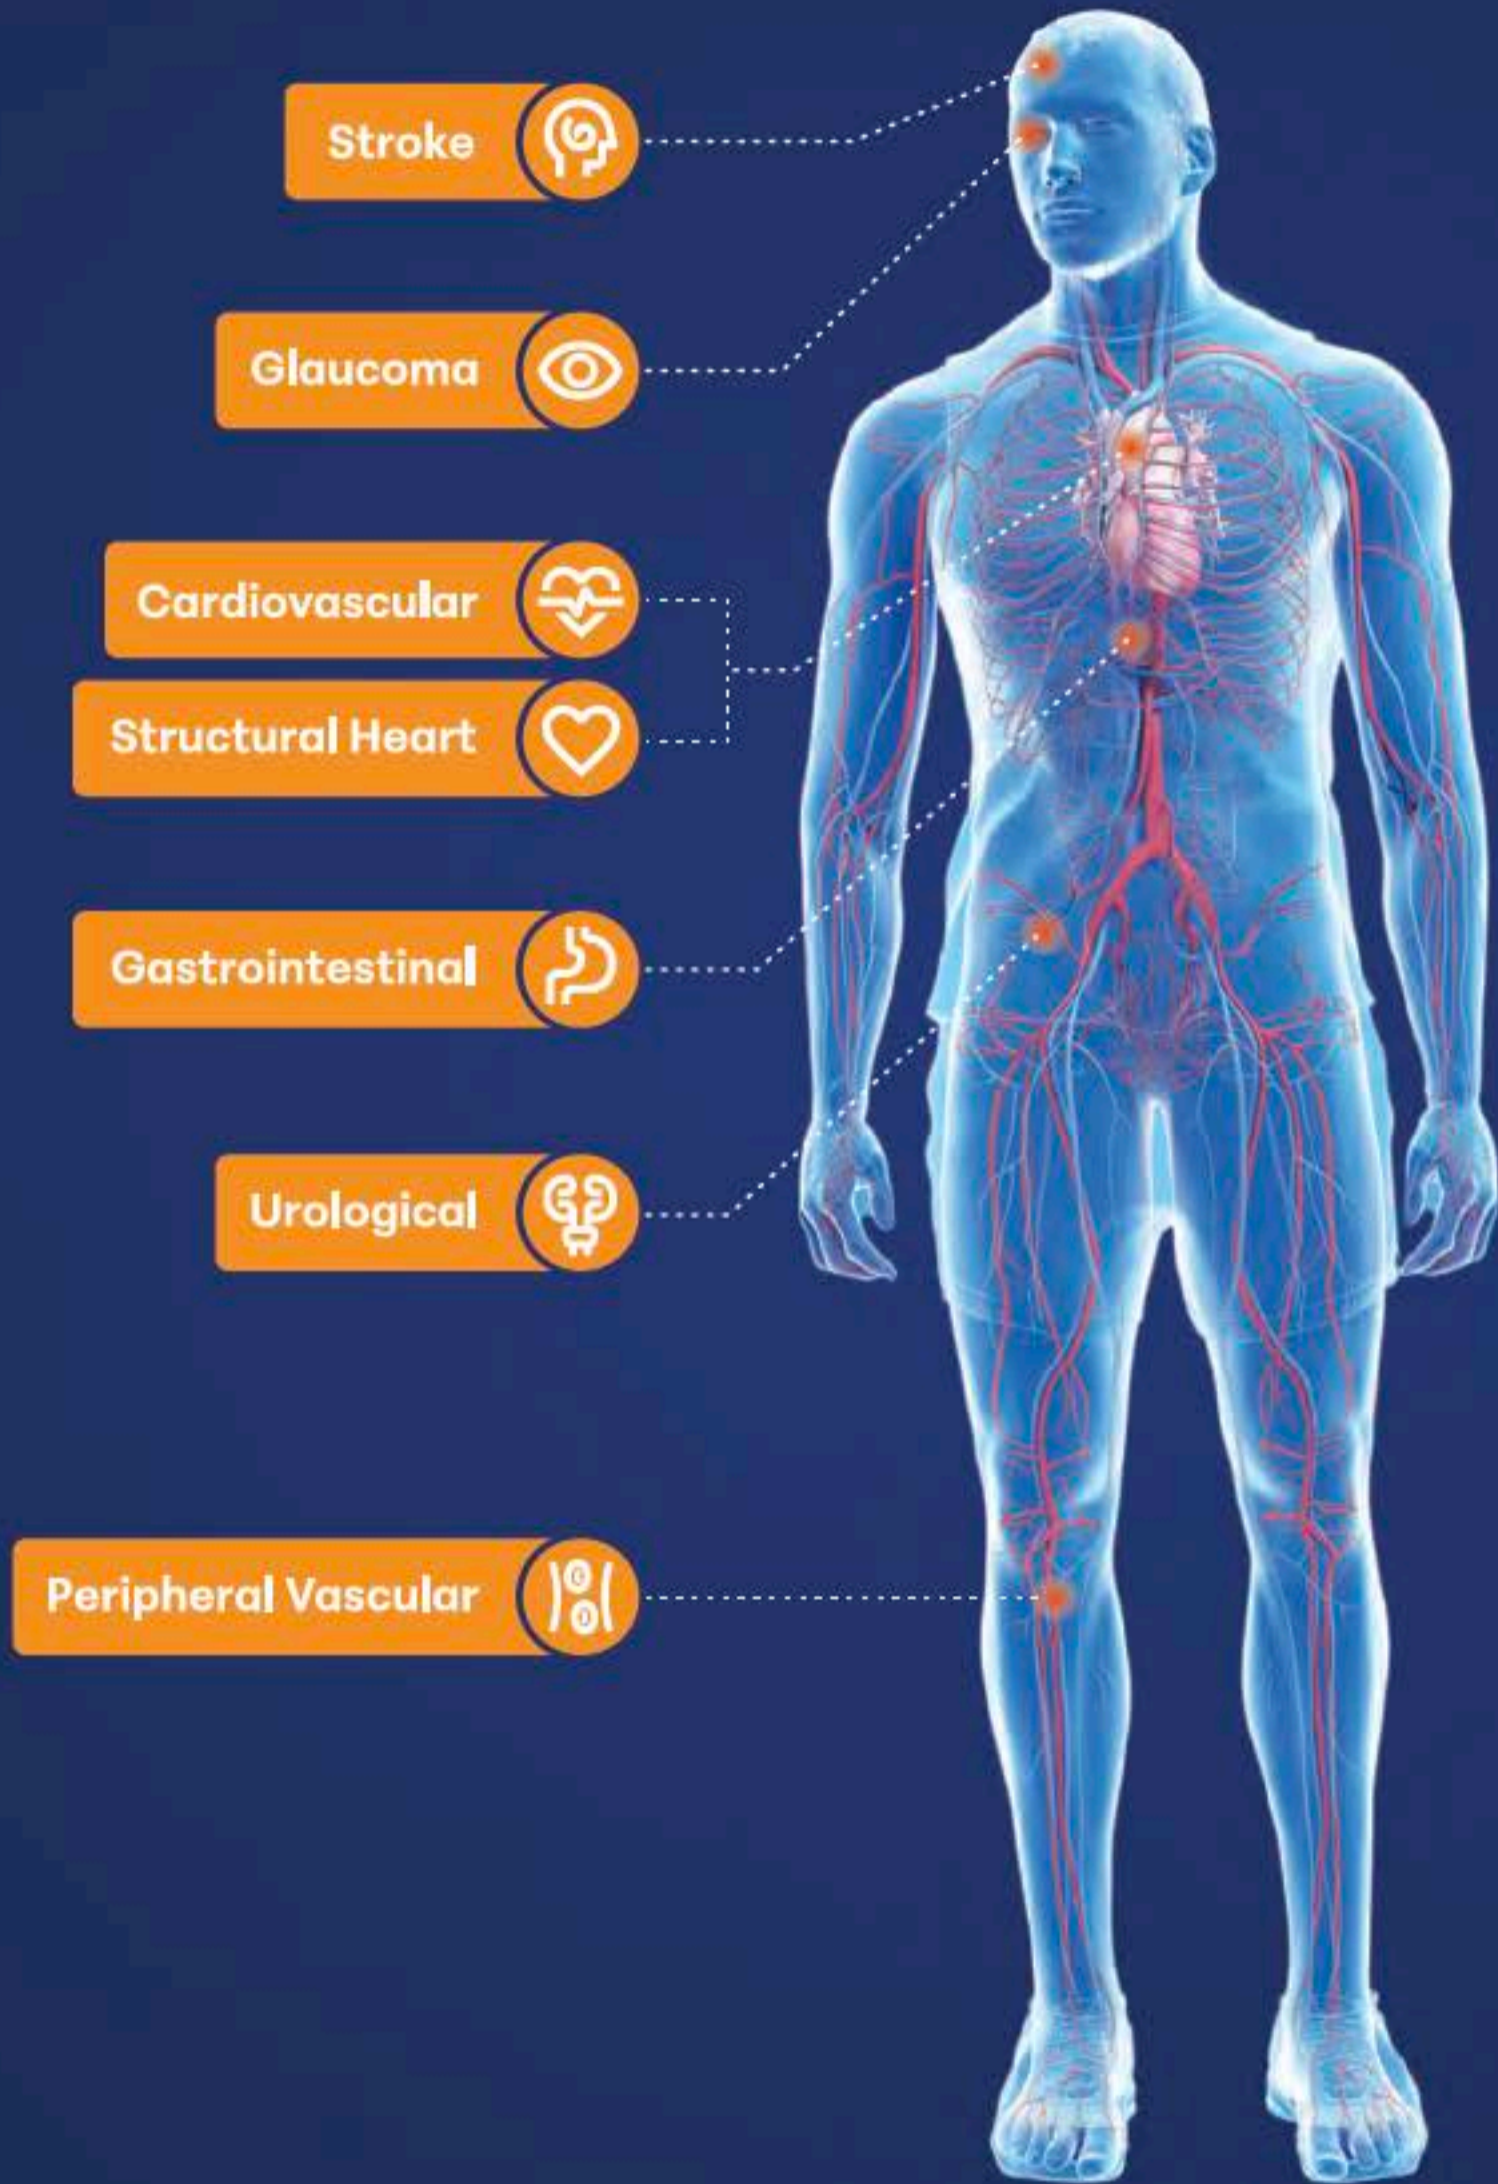

## **Accelerate Your MedTech Innovations**

Partner with TAG3 to navigate the process for designing, developing, and manufacturing your innovation.

**TAG3**

# Our Areas of Clinical Expertise

# Partner With TAG3 On Your Journey to Develop Your Medical Device

## Design

Transform your ideas into innovative, functional medical devices using our expert team.

### High-level Design Services:

- Product Concept Design
- Preliminary Hazard Analysis
- Rapid Prototyping (including 3D printing)
- Requirements Development
- Risk Management Plan

## Develop

From concept to prototype to manufacturable product, we streamline regulated and compliant development for faster, efficient solutions.

### High-level Development Services:

- Detailed Product Design
- Design and Process FMEA
- Clinical Builds
- Packaging Design and Development
- Design for Manufacturability
- Design, Verification and Validation Testing
- Regulatory Filings

## Manufacture

Scale your production with our ISO 13485 and GMP-compliant manufacturing processes.

### High-level Manufacturing Services:

- Process Validation (IQ, OQ, and PQ)
- Packaging and Sterilization
- End-to-End Supply Chain Management
- Commercial Readiness Planning
- Commercial Production

# Join us in creating the next generation of medical devices.

Founded in 2015 by three seasoned medical device experts with the vision of offering exceptional product design, development, and production services to the MedTech Industry.

With expertise across every phase – design, engineering, V&V testing, and manufacturing – we ensure each device meets and exceeds stringent industry standards. Our collaborative approach combines our specialized knowledge with your unique concepts and vision, resulting in breakthrough innovations that are redefining the future of healthcare.
